RAM ENTERPRISE P&P WBS STRUCTURE – 06_Performance

06_Performance

This section governs how RAM measures, monitors, evaluates, and improves asset, financial, operational, and strategic performance across the portfolio.

Below is the **WBS-coded policy tree**, fully structured and aligned conceptually with:

- ISO 55001 (Asset Management)
- COSO Performance & Monitoring
- OECD-DAC logic (for impact-linked assets if applicable)
- Real estate / asset management global best practice

06.1 Performance Governance Framework

06.1.1 Performance Policy

Purpose: Define overall philosophy, KPIs hierarchy, and accountability.

06.1.1.1 Objectives

- Align performance with investment strategy
- Balance return, risk, and asset quality
- Protect capital and optimize yield

06.1.1.2 KPI Hierarchy Structure

- Portfolio KPIs
- Asset KPIs
- Department KPIs
- Individual KPIs

06.1.1.3 Roles & Accountability

- Board → Oversight
- Investment Committee → Strategic performance
- Asset Management → Portfolio KPIs
- FM → Operational KPIs
- Finance → Financial KPIs

06.2 Portfolio Performance Management

06.2.1 Portfolio KPI Framework

06.2.1.1 Core Portfolio KPIs

- IRR
- Net Yield
- Portfolio NOI
- Occupancy Rate
- WAULT
- Capital Growth
- Risk Concentration Index

06.2.1.2 Diversification Metrics

- Geographic exposure %
- Sector exposure %
- Tenant concentration %

06.2.1.3 Benchmarking

- Market benchmark comparison
- Peer fund comparison
- Historical trend analysis

Forms:

- F-06.2-01 Portfolio Performance Dashboard
- F-06.2-02 Quarterly Portfolio Review Template

06.3 Asset-Level Performance Monitoring

06.3.1 Asset KPI Matrix

06.3.1.1 Revenue Metrics

- Gross Rental Income
- Service Charge Recovery
- Rent Collection %

06.3.1.2 Occupancy Metrics

- Physical Occupancy
- Economic Occupancy
- Lease Expiry Risk

06.3.1.3 Asset Efficiency Metrics

- Operating Expense Ratio
- Cost per sqm
- Energy intensity

06.3.1.4 Asset Rating System (1–5)

(Aligned with your MSME structured scoring preference)

Score	Meaning
1	Critical underperformance
2	Below threshold
3	Acceptable
4	Strong
5	Top performer

Forms:

- F-06.3-01 Asset Performance Scorecard
- F-06.3-02 Asset Quarterly Review Form

06.4 Financial Performance & Yield Monitoring

06.4.1 Financial Metrics

06.4.1.1 Profitability

- NOI Margin
- EBITDA
- Net Profit

06.4.1.2 Return Metrics

- IRR
- Equity Multiple
- ROA
- ROE

06.4.1.3 Liquidity Metrics

- DSCR
- LTV
- Cash Flow Stability Index

06.4.1.4 Variance Analysis Procedure

- Budget vs Actual
- Forecast updates
- Sensitivity scenarios

Forms:

- F-06.4-01 Financial Performance Report
- F-06.4-02 Budget Variance Analysis Sheet

06.5 Operational Performance (Leasing & FM)

06.5.1 Leasing KPIs

- Time-to-lease
- Leasing spread
- Renewal rate
- Tenant retention rate

06.5.2 Facility Management KPIs

- Maintenance response time
- Preventive maintenance compliance %
- Downtime %
- Work order closure rate

Forms:

- F-06.5-01 Leasing Performance Report
- F-06.5-02 FM Monthly KPI Report

06.6 CapEx & Project Performance

06.6.1 Project KPIs

- Schedule variance
- Cost variance
- Quality compliance rate
- Post-CapEx ROI

06.6.2 Post-Investment Evaluation

- 6-month review
- 12-month impact analysis
- Value uplift measurement

Forms:

- F-06.6-01 CapEx Performance Review
- F-06.6-02 Post-Completion Evaluation Form

06.7 ESG & Sustainability Performance

06.7.1 ESG KPI Framework

- Energy consumption reduction
- Carbon footprint
- Waste diversion %
- Tenant satisfaction index
- Health & safety compliance

06.7.2 ESG Rating System

Internal ESG Score 1–5

06.7.3 Sustainability Reporting

- Annual ESG Report
- Regulatory disclosures

Forms:

- F-06.7-01 ESG Monitoring Template
- F-06.7-02 Sustainability Dashboard

06.8 Risk-Adjusted Performance Monitoring

06.8.1 Risk-Return Matrix

- IRR vs Risk category
- Volatility-adjusted return
- Sensitivity stress testing

06.8.2 Scenario Testing

- Vacancy stress
- Interest rate shock
- Market value drop

Forms:

- F-06.8-01 Risk-Adjusted Performance Sheet
- F-06.8-02 Stress Testing Model

06.9 Performance Reporting & Dashboards

06.9.1 Reporting Frequency

- Monthly operational
- Quarterly financial
- Annual strategic

06.9.2 Dashboard Architecture

- Executive Dashboard
- Asset Manager Dashboard
- FM Dashboard
- Board Report Pack

06.9.3 Data Visualization Standards

- Traffic light system (RAG)
- Trend lines (3–5 year)
- Variance flags (>10%)

06.10 Performance Review & Improvement Cycle

06.10.1 Review Meetings

- Monthly asset meeting
- Quarterly portfolio review
- Annual strategy reset

06.10.2 Underperformance Protocol

06.10.2.1 Trigger Threshold

- KPI below target 2 consecutive periods

06.10.2.2 Corrective Action Plan

- Root cause analysis
- Action owner
- Deadline
- Monitoring

06.11 Performance Data Governance & Controls

06.11.1 Data Integrity Controls

- Data source validation
- System reconciliation
- Audit trail

06.11.2 Segregation of Duties

- Data input
- Validation
- Reporting approval

06.11.3 Compliance Alignment

- Audit readiness
- Regulatory disclosure compliance

◆ Options + forms

1. **Governance Risk & Control Matrix (aligned with COSO Monitoring & Performance)**
2. Build a **Performance KPI Master Table (Consulting-grade, full matrix)**
3. Create **BPMN process maps** for performance cycle
4. Design **Board Reporting Pack structure**
5. Build **Performance Scoring Engine (1–5 weighted model)**
6. Integrate it into a full RAM Enterprise Manual master structure

---

Hassan to review the levels and additions

- Deep technical control matrix?
- Executive dashboard architecture?
- Or full ISO-aligned integrated performance manual?
