L_0_21_Business_Continuity_Crisis

(Business Continuity Management & Crisis Governance Framework – RAM)

1-Purpose

To establish a structured **Business Continuity Management (BCM) and Crisis Management Framework** that ensures:

- Operational resilience
- Protection of assets, people, tenants, and stakeholders
- Regulatory compliance
- Financial stability during disruptions
- Rapid recovery of critical services

This policy applies to all RAM departments including:
Investment, Leasing, Facility Management, Finance, HR, IT, Procurement, Sales & Marketing, and Administration.

2-Governance Structure

2-1- Crisis Governance Model

Level	Role	Responsibility
Board	Oversight	Approves BCM framework
CEO	Crisis Sponsor	Declares crisis status
Crisis Committee	Decision Authority	Strategic response
BCM Manager	Operational Lead	Activates BCP
Department Heads	Functional Leads	Execute recovery plans
HSE & Security	Emergency Control	Site-level response

2-2- Process Architecture (WBS)

21.1 Business Continuity Planning (BCP)

- 21.1.1 Risk Identification
- 21.1.2 Business Impact Analysis (BIA)
- 21.1.3 Recovery Strategy Development
- 21.1.4 Continuity Plan Documentation
- 21.1.5 Training & Simulation

21.2 Crisis Management

- 21.2.1 Crisis Identification & Classification
- 21.2.2 Crisis Escalation Protocol

21.2.3 Communication Management

- 21.2.4 Decision Log & Control Room
- 21.2.5 Post-Crisis Review

21.3 Disaster Recovery (IT & Infrastructure)

- 21.3.1 Data Backup & Replication
- 21.3.2 System Recovery
- 21.3.3 Facility Recovery
- 21.3.4 Vendor Continuity

3-SIPOC – Business Continuity Activation

Supplier	Input	Process	Output	Customer
Risk Unit	Risk Register	Crisis Identification	Crisis Classification	Executive Committee
IT	Backup Systems	DR Activation	System Recovery	All Departments
FM	Emergency Plans	Facility Response	Safe Premises	Tenants
HR	Employee Database	Staff Communication	Workforce Stability	Operations
Procurement	Vendor Contracts	Alternative Sourcing	Supply Continuity	Business Units

---

4-BPMN – Crisis Activation Flow (Simplified)

1. Incident Detected
2. Risk Assessment
3. Crisis Level Assigned
4. CEO Notified
5. Crisis Committee Activated
6. Business Continuity Plan Triggered
7. Communication Issued
8. Recovery Execution
9. Monitoring & Reporting
10. Closure & Lessons Learned

5-RACI Matrix

Activity	CEO	BCM Mgr	IT	FM	HR	Finance	Dept Heads
Crisis Declaration	A	R	C	C	C	C	C
BIA Update	C	A	R	R	R	R	R
DR Activation	C	R	A	C	C	C	C
Tenant Communication	C	R	C	A	C	C	C
Insurance Claim	C	R	C	C	C	A	C
Post Review	A	R	C	C	C	C	R

R = Responsible
A = Accountable
C = Consulted

A BCM Manager if not available we delegate as a second hat the job to a team header by a team leader to act as a scheduled or an urgent task as proposed in RAM organization structure.

6-Crisis Classification Matrix

Level	Description	Example
Level 1	Minor disruption	Short IT outage
Level 2	Significant disruption	Facility shutdown
Level 3	Major crisis	Fire, cyberattack, terrorism
Level 4	Catastrophic	Pandemic, geopolitical crisis

7-Business Impact Analysis (BIA)

Critical Areas & RTO/RPO

Function	Maximum Downtime	RTO	RPO
ERP System	24 hrs	8 hrs	2 hrs
Tenant Services	12 hrs	4 hrs	1 hr
Treasury	48 hrs	24 hrs	4 hrs
Leasing	72 hrs	48 hrs	24 hrs
Security Systems	Immediate	1 hr	Real-time

RTO = Recovery Time Objective
RPO = Recovery Point Objective

8-Risk Categories

- Natural disasters (flood, earthquake)
- Fire & structural damage
- Cybersecurity breaches
- Data loss
- Pandemic
- Political unrest
- Supply chain collapse
- Utility failure
- Reputational crisis
- Tenant legal escalation

9-Communication Framework

10.1 Internal Communication

- SMS Alerts
- Email Broadcast
- Emergency WhatsApp Group
- Crisis Portal (Intranet)

10.2 External Communication

- Tenant Notices
- Media Statement
- Regulatory Reporting
- Investor Update
- Insurance Notification

10- IT Disaster Recovery Policy

- Daily incremental backups
- Weekly full backups
- Cloud replication
- Offsite storage
- 2FA and cybersecurity protocols
- Annual penetration testing
- DR simulation twice per year

11- KPI Dashboard

KPI	Target
Crisis response time	< 30 minutes
System recovery time	Within RTO
% Staff trained in BCP	100%
Simulation completion rate	2 per year
Insurance claim recovery time	< 90 days
Tenant disruption complaints	< 5%

12- SAP / ERP Integration

Module	BCM Function
SAP FI	Financial recovery tracking
SAP MM	Alternative supplier activation
SAP HR	Staff communication
SAP PM	Facility repair management
SAP GRC	Risk & compliance monitoring

13- Forms & Templates

Mandatory Forms

1. BCM-01 Risk Assessment Template
2. BCM-02 Business Impact Analysis Form
3. BCM-03 Crisis Declaration Form
4. BCM-04 Communication Log
5. BCM-05 Incident Report Form
6. BCM-06 DR Activation Checklist
7. BCM-07 Insurance Claim Form
8. BCM-08 Post-Crisis Review Template
9. BCM-09 Simulation Evaluation Sheet
10. BCM-10 Emergency Contact List Template

14- Crisis Committee Structure

- CEO (Chair)
- CFO
- COO
- Head of IT
- Head of FM
- Head of HR
- Legal Advisor

- Communications Lead
- Security Lead

15- Insurance & Financial Protection

- Property Insurance
- Business Interruption Insurance
- Cybersecurity Insurance
- Liability Insurance
- Tenant-related insurance clauses

16- Training & Simulation

Type	Frequency
Tabletop exercise	Quarterly
Fire drill	Semi-Annual
Cyberattack simulation	Annual
Full Crisis Simulation	Annual

17- Post-Crisis Review Framework

- Root Cause Analysis
- Financial Impact Assessment
- Insurance Recovery Review
- Stakeholder Feedback
- Policy Update
- Risk Register Update
- Lessons Learned Report

18- Regulatory Alignment

- ISO 22301 (Business Continuity)
- ISO 27001 (Information Security)
- Local Civil Defense Regulations
- Labor Law emergency compliance
- Insurance contractual obligations

19- Escalation Matrix

Time Elapsed	Escalation Level
0–30 min	Dept Head
30–60 min	BCM Manager
1–2 hrs	Crisis Committee
2+ hrs	CEO & Board

20- Control Measures

- Annual BCM Audit
- Quarterly Risk Review
- External BCM Certification (optional)
- Business Continuity Budget Allocation
- Vendor Continuity Clause in all contracts

21- Integration with Other RAM Policies

- 07_Risk_Compliance
- 15_IT_Data_Governance
- 04_Facility_Management
- 11_Finance_Accounting
- 13_Procurement_Commercial
- 14_Human_Resources_Interface
- 19_Internal_Control_Audit
- 20_Ethics_Compliance_Conduct

22- Maturity Levels (BCM)

Level	Description
Level 1	Reactive
Level 2	Basic documented
Level 3	Integrated
Level 4	Optimized
Level 5	Resilient & Predictive

BCM ANNEX

Annexes: Annex 1: BCM Forms

BCM-01 Risk Assessment Template

Document Code: BCM-01
Version: ___
Date: ___
Department: ___
Prepared by: ___

1. Risk Identification

Risk ID	Risk Category	Description	Location	Owner
	Natural / IT / Operational / Financial / Reputational			

---

2. Risk Scoring Matrix

Impact (1–5) Likelihood (1–5) Detection (1–5) Risk Score (I×L×D) Rating

Risk Rating Scale:

- 1–20 = Low
- 21–50 = Medium
- 51–75 = High
- 76–125 = Critical

---

3. Mitigation Plan

Control Type Existing Controls Additional Actions Responsible Due Date

---

BCM-02 Business Impact Analysis (BIA) Form

Critical Process Name: _____
Department: _____

1. Process Criticality

Criteria	Description
Financial Impact per day	
Operational Impact	
Legal/Regulatory Impact	
Reputational Impact	

---

2. Recovery Metrics

Metric	Target
Maximum Tolerable Downtime (MTD)	
Recovery Time Objective (RTO)	
Recovery Point Objective (RPO)	
Minimum Resources Required	

---

3. Dependency Mapping

Dependency Type	Details
IT Systems	
Vendors	
Key Staff	
Facilities	
Utilities	

BCM-03 Crisis Declaration Form

Incident Title: _____
Date/Time Identified: _____
Reported By: _____

1. Crisis Classification

☐ Level 1 – Minor
☐ Level 2 – Significant
☐ Level 3 – Major
☐ Level 4 – Catastrophic

---

2. Initial Assessment

Question	Response
Is life safety impacted?	Yes / No
Is operations disrupted?	Yes / No
Is media attention expected?	Yes / No
Estimated financial exposure	

---

3. CEO Decision

☐ Crisis Declared
☐ Monitoring Only

Signature: _____

BCM-04 Communication Log

Date Time Stakeholder Channel Message Summary Owner

BCM-05 Incident Report Form

Incident ID: _____
Location: _____
Date: _____

1. Incident Description

(Provide detailed narrative)

---

2. Immediate Actions Taken

---

3. Root Cause (Preliminary)

---

4. Attachments

☐ Photos
☐ System Logs
☐ Witness Statements

📄 BCM-06 Disaster Recovery (DR) Activation Checklist

☐ Backup integrity verified
☐ DR Site activated
☐ ERP restored
☐ Email servers operational
☐ Network security validated
☐ User access restored
☐ Business unit confirmation received

IT Lead Signature: _____
BCM Manager Signature: _____

📄 BCM-07 Insurance Claim Notification Form

Policy Number: _____
Insurance Type: Property / BI / Cyber / Liability

Item	Description
Loss Description	
Estimated Loss Amount	
Date of Loss	
Claim Submitted Date	
Adjuster Assigned	

📄 BCM-08 Post-Crisis Review Template

Crisis Name: _____
Duration: _____

1. Timeline Summary

---

2. Performance Against KPIs

KPI Target Actual Gap

---

3. Lessons Learned

Area Improvement Required Owner Deadline

---

4. Policy Updates Required

📄 BCM-09 Simulation & Drill Evaluation Form

Simulation Type: Fire / Cyber / Full Crisis
Date: _____

1. Objectives Achieved?

☐ Yes
☐ Partially
☐ No

---

2. Observations

---

3. Improvement Plan

Gap Identified Corrective Action Owner Deadline

📄 BCM-10 Emergency Contact List Template

Role Name Mobile Email Backup Contact

Mandatory Roles:

- CEO
- CFO
- BCM Manager
- IT Head
- FM Head
- HR Head
- Security Lead
- Legal Advisor
- Insurance Broker
- Civil Defense Authority

📄 BCM-11 Alternative Supplier Activation Form

Vendor Category	Primary Vendor	Alternative Vendor	Activation Date	Approval

---

📄 BCM-12 Tenant Notification Template (Editable)

Subject: Important Notice – Operational Update

Dear [Tenant Name],

Due to [incident description], the following impact may occur:

- _____
- _____

Expected resolution timeline: _____

For urgent matters contact: _____

RAM Crisis Management Team

📄 BCM-13 Crisis Financial Impact Tracker

Cost Category	Estimated	Actual	Variance
Property Damage			
Revenue Loss			
IT Recovery Cost			
Legal Cost			
Insurance Recovery			

📄 BCM-14 Crisis Decision Log

Date Decision Approved By Rationale Impact

📄 BCM-15 Business Continuity Budget Allocation Form

Annex 2: BCM Maturity

1 Maturity Scale Definition

Level	Title	Description
1	Reactive	No formal BCM. Crisis handled ad-hoc.
2	Basic	Documented policy but limited testing.
3	Structured	BIA completed, plans exist, partial drills.
4	Integrated	BCM embedded in ERP, annual simulations, KPI tracking.
5	Predictive	Scenario modeling, AI risk alerts, resilience metrics embedded in strategy.

---

2 Assessment Dimensions

A. Governance & Leadership

Question	Score (1–5)
Formal BCM policy approved by Board?	
Defined Crisis Committee & escalation matrix?	
CEO-level ownership?	
Annual review cycle?	
Integrated with Risk & Audit?	

B. Risk & Business Impact Analysis

Question	Score
Comprehensive risk register updated quarterly?	
Documented BIA for all critical processes?	
Defined RTO & RPO per function?	
Dependency mapping (IT, vendors, utilities)?	
Scenario stress testing performed?	

C. IT & Data Resilience

Question	Score
Cloud replication implemented?	
Daily automated backups?	
Penetration testing annually?	
DR simulation tested?	
Cyber insurance coverage active?	

D. Facility & Operational Resilience

Question	Score
Fire & evacuation plans tested?	
Alternative site identified?	
Vendor continuity clauses embedded?	
Tenant emergency coordination framework?	
Critical utilities redundancy?	

E. Financial & Insurance Resilience

Question	Score
Business interruption insurance coverage adequate?	
Liquidity buffer defined?	
Crisis financial impact tracker used?	
Insurance claim simulations performed?	
Treasury stress testing?	

F. Culture & Training

Question	Score
100% staff trained in BCP?	
Annual full crisis simulation?	
Quarterly tabletop exercises?	
Communication drills conducted?	
Post-crisis lessons embedded?	

---

3 Scoring Methodology

Total possible score = 150

Score Range	Maturity Level
0–30	Level 1 – Reactive
31–60	Level 2 – Basic
61–90	Level 3 – Structured
91–120	Level 4 – Integrated
121–150	Level 5 – Predictive

---

4 Output Dashboard (Executive View)

Dimension	Score	%	Status
Governance			
Risk & BIA			
IT Resilience			
Facility			
Financial			
Culture			

Gap Heat Map Recommendation

- Red: <50%
- Yellow: 50–75%
- Green: >75%

5 Action Planning Sheet

Gap Identified	Priority	Owner	Budget	Deadline

PART II — FULL CRISIS SIMULATION PLAYBOOK

Structured as a **war-room manual** for RAM.

SCENARIO 1: FIRE IN MAIN FACILITY

Situation:

Electrical short circuit causes fire in mechanical room.

T0 (0–15 Minutes)

- Evacuation alarm triggered
- Security & FM lead response
- Civil Defense contacted
- Crisis Committee alerted

T1 (30–60 Minutes)

- Facility damage assessment
- IT shutdown confirmation
- Tenant notification

T2 (2–6 Hours)

- Alternative workspace activated
- Insurance notified
- Media holding statement prepared

T3 (24–72 Hours)

- Temporary restoration
- Financial loss estimate
- Staff welfare support

Simulation Objectives

- Evacuation under 8 minutes
- Communication within 15 minutes
- ERP restored within RTO

SCENARIO 2: CYBERATTACK (RANSOMWARE)

Situation:

ERP locked, ransom demand received.

T0

- IT isolates network
- Activate DR site
- Inform BCM Manager

T1

- Cyber forensic team engaged
- Legal consulted
- Cyber insurance notified

T2

- Restore from clean backup
- Password reset all users
- Tenant data privacy review

T3

- Regulatory reporting (if required)
- Root cause analysis
- Security patch upgrade

Simulation KPIs

- System recovery within 8 hours
- No data loss beyond RPO
- Zero regulatory penalty

SCENARIO 3: POLITICAL UNREST NEAR PROPERTY

Situation:

Civil protests within 1 km of property.

T0

- Increase security level
- Restrict access
- Inform tenants

T1

- Remote work activation
- Coordinate with authorities
- Monitor media

T2

- Insurance risk advisory
- Adjust operating hours
- Business continuity status review

Objective

- Zero injury
- 90% operations maintained remotely

SCENARIO 4: ANCHOR TENANT COLLAPSE / BANKRUPTCY

Situation:

Major tenant declares insolvency.

T0

- Legal review lease terms
- Financial exposure assessment

T1

- Cash flow impact model
- Replacement tenant pipeline activation
- Investor communication

T2

- Space repurposing strategy
- Incentive restructuring

Objective

- Revenue gap < 20% impact
- Replacement secured within 90 days

Simulation Evaluation Form

Area	Target	Actual	Gap
Decision Speed			
Communication			
System Recovery			
Financial Control			
Stakeholder Confidence
